## About Me

- I am a **Full-stack developer** having more than **+5 years** of experience in building web applications that match client needs. The client usually explains to me what they want to accomplish and I will explain the solution and develop it. I am pretty much confident with my talent and knowledge which I achieved in the past working on many projects based on different industries.

## Education

- Bachelor of Science in Information Technology (BSCIT)**  
*Atmiya University, Rajkot, Gujrat | 2013-2016*
  - Gained a strong foundation in computer science, programming, and IT fundamentals.
  - I completed various projects on e-commerce web apps, Instagram clone apps, etc.
  - Developed skills of myself learning in Next.js, and React. Redux(Saga & Thunk), Node.js, Nest.js with Micro-service, MongoDB, Mysql, PostgreSQL, etc.
- Master of Science In Information Technology (MSCIT)**  
*Atmiya University, Rajkot Gujrat | 2016-2018*
  - Focused on advanced topics and third-party platforms in software development, database management, and networking.
  - Worked on research projects related to Cloud Computing etc.
  - Gained hands-on experience with AWS, GCP Azure, Firebase services, etc.

## Experience

- Full Stack Developer**  
*Freelancer* 2018 - Present
  - With over +5 years of hands-on experience in full-stack web and mobile app development, I specialize in building scalable, high-performance applications and managing complex database systems. I have worked with a diverse range of clients, from innovative startups to multinational corporations, providing solutions that drive business growth and enhance user experiences.

## Past Projects

---

### 1) Sketchnote (Remotely Work)

- **Sketchnote.com** is an all-in-one project management platform featuring a visual Kanban board for tracking tasks and deadlines, a time tracker for logging hours and calculating project costs, and an LMS module for creating and delivering online courses. It integrates seamlessly with tools like Asana and Jira, enhancing team productivity and workflow. With a focus on data security, Sketchnote.com uses AWS infrastructure to keep user data safe. Ideal for individuals and teams, it simplifies project management and learning.

**Stacks** :- Next.js, Redux-Saga, Typescript, Node, MongoDB, AWS

**UI Frameworks:**- Chakra UI and Material UI

### 2) Designed (Remotely Work)

- **Designed.org** is a 501(c)(3) non-profit platform focused on providing educational resources and mentorship for designers worldwide. It connects designers with a global community of experienced mentors from top companies like Google, Amazon, and Netflix. The platform offers free access to mentorship, career advice, and tools to help designers grow professionally. Designed.org aims to foster a diverse and inclusive design community, supporting both seasoned and emerging designers in their career development.

**Link:**- <https://designed.org>

**Stacks** :- Next.js, Redux, Typescript, GraphQL, AWS, Serverless, Nhost.io, Hasura, Cloudflare

**UI Frameworks:**- Tailwind

### 3) SpainHeritageNetwork (Remotely Work)

- **SpainHeritageNetwork.com** is a platform dedicated to promoting Spain's cultural and historical heritage. It connects users with a network of historic sites, monuments, and attractions across Spain, offering resources for travelers, history enthusiasts, and cultural explorers

**Link:**- <https://spainheritagenetwork.com>

**Stacks** :- Vue.js, Vuex, Typescript, Node, MongoDB, AWS, Chart.js

**UI Frameworks:**- Chakra UI and Material UI

### 4) SafariTrekBeach (Remotely Work)

- **SafariTrekBeach.com** is a Tanzanian-based tour operator specializing in safari adventures and beach holidays. They offer a variety of tours, including wildlife safaris in national parks like Serengeti and Ngorongoro Crater, as well as beach excursions to Zanzibar. Their services are designed to provide travelers with an authentic experience of Tanzania's natural beauty and cultural heritage.

**Link:**- <https://safariTreksBeach.com>

**Stacks** :- Vue.js, Vuex, Typescript, Laravel, MySQL, AWS

**UI Frameworks:**- Vue

### 5) Door Coin (Remotely Work)

- **DoorCoin.com** is an easy-to-use platform for buying, selling, and exchanging cryptocurrencies like Bitcoin, Ethereum, and Litecoin. It offers convenient payment options, including bank transfers and credit cards, for depositing funds. Users can trade at market rates and earn bonus coins through its referral program by inviting others to join and trade. Ideal for both beginners and experienced users, DoorCoin.com provides a seamless cryptocurrency experience.

**Link:**- <https://doorcoin.com>

**Stacks** :- React.js, Redux, Typescript, Node MongoDB, Stripe, Metamast, Cryptography

**UI Frameworks:**- Bootstrap with Styled-component
